

# KS2

## Winter Learning Activities
## Wednesday 27th January

## English

**Winter Scene Writing Prompts:** Use winter as inspiration for writing. Head outside and photograph 'winter'. Create a bank of images to use as a writing prompt. Could you write some similes and metaphors to describe your winter photos?

**Winter Haiku:** You could write a winter haiku based on your photos using this Haiku Poem Writing Template.

## Art/PSHE

**Beautiful Birds:** Follow this Step By Step Guide on how to draw a Robin. After, you could go outside and do some bird spotting using the Bird ID Chart. You could also sign up to take part in the RSPB Big Garden Birdwatch on the 29-31st January.

## STEM and Investigation

**Terrific Trees:** Deciduous trees lose their leaves in winter but you could still identify them by their bark. Using strips of paper and wax crayons, head outside and do some bark rubbings. Compare the patterns you find. Can you use information books or the internet to identify trees?

**Winter Sunshine Shadows:** Go outside and investigate shadows. Use this Sundial Outdoor Learning Activity to help. Investigate why shadows are the longest in winter.

**Winter Warmer:** You could also try this warming outdoor Science investigation: Winter Hot Drinks Outdoor Science Experiment

## Maths

**Winter Solstice Maths Challenge:** Complete this Winter Solstice Maths Investigation and then head outside to use a compass to find north, south, east and west. Compasses can be downloaded from the App Store.

**Snowflake Symmetry:** Take a camera or an iPad outside and explore symmetry in the environment around you. Photograph examples of leaves, snowflakes, ice patterns and bare trees which look symmetrical.
