

We are pleased to inform you that we are now using DoodleMaths, the award-winning homework programme, with your child's class! You'll find your child's username and password attached.

Follow these steps to get started:

- Download the DoodleMaths and the DoodleTables apps from doodlemaths.com/available-apps
- Ask your child to sign in using the details attached (remember, it's case sensitive!)
- Link your parent account by either asking your child to login to the app and tap on **Grown Ups** or, via parents.doodlemaths.com. Please follow the instructions in this link
<https://help.doodlehq.com/en/articles/2892158-how-to-link-a-parent-account-to-a-child-s-school-account>
- Let your child work through their x-a-day exercise without any help - encourage them to do it independently and if they're really unsure, guess!
- Log in to parents.doodlemaths.com with your Grown Ups username and password to see how your child is progressing
- Download the **DoodleConnect** app (available on iOS) or log in to the **Parent Dashboard** to receive progress snapshot updates

Why DoodleMaths?

- DoodleMaths improves children's confidence and ability in maths. Using the app for just 10 minutes a day is proven to help children make three months of progress in just one month!
- DoodleMaths learns what your child's strengths and weaknesses are and creates a personalised work programme tailored around them
- Most importantly, it's fun and engaging, with motivational collectables, educational games and seasonal Challenges to take part in

Encourage your child to be within their target zone by earning their target number of stars per week.

If you have any questions, please visit help.doodlehq.com or speak to a member of the Doodle team by clicking on the green chat icon on the website.

Happy Doodling!
